

What our clients say

“Umuzi Digital has been extremely helpful in executing IT-related projects. Their expertise and creativity are also very impressive, and best of all, they are always open to feedback at every iteration we want to make.

Nzotunga Thaddée
Managing Director at CEREPE

“They work quickly, take constructive feedback, and act promptly on it. I can say very positive things about my experience working with Umuzi Digital. You will certainly be satisfied with the work they deliver.

Nijimbere Franck
Founder and CEO at GoAgentic

Why choose us

We design and develop custom digital solutions to help businesses work better and perform more efficiently.

Work *smarter,*
grow *faster.*

Umuzi Digital is a technology company that designs and develops custom AI-powered software, SaaS platforms, websites, and digital tools focused on automation — helping individuals and businesses thrive.

How we work

Umuzi Digital designs digital solutions tailored to your needs — whether it's a custom project or an off-the-shelf tool. We work closely with you to ensure fast, reliable results that meet your expectations. You have access to a dedicated space to track every stage of the project. Our team also provides follow-up support and updates after delivery.

/1

Getting Started :

Share your needs or choose an off-the-shelf solution. Together, we define the project plan, cost, and timeline.

/2

Development or Setup:

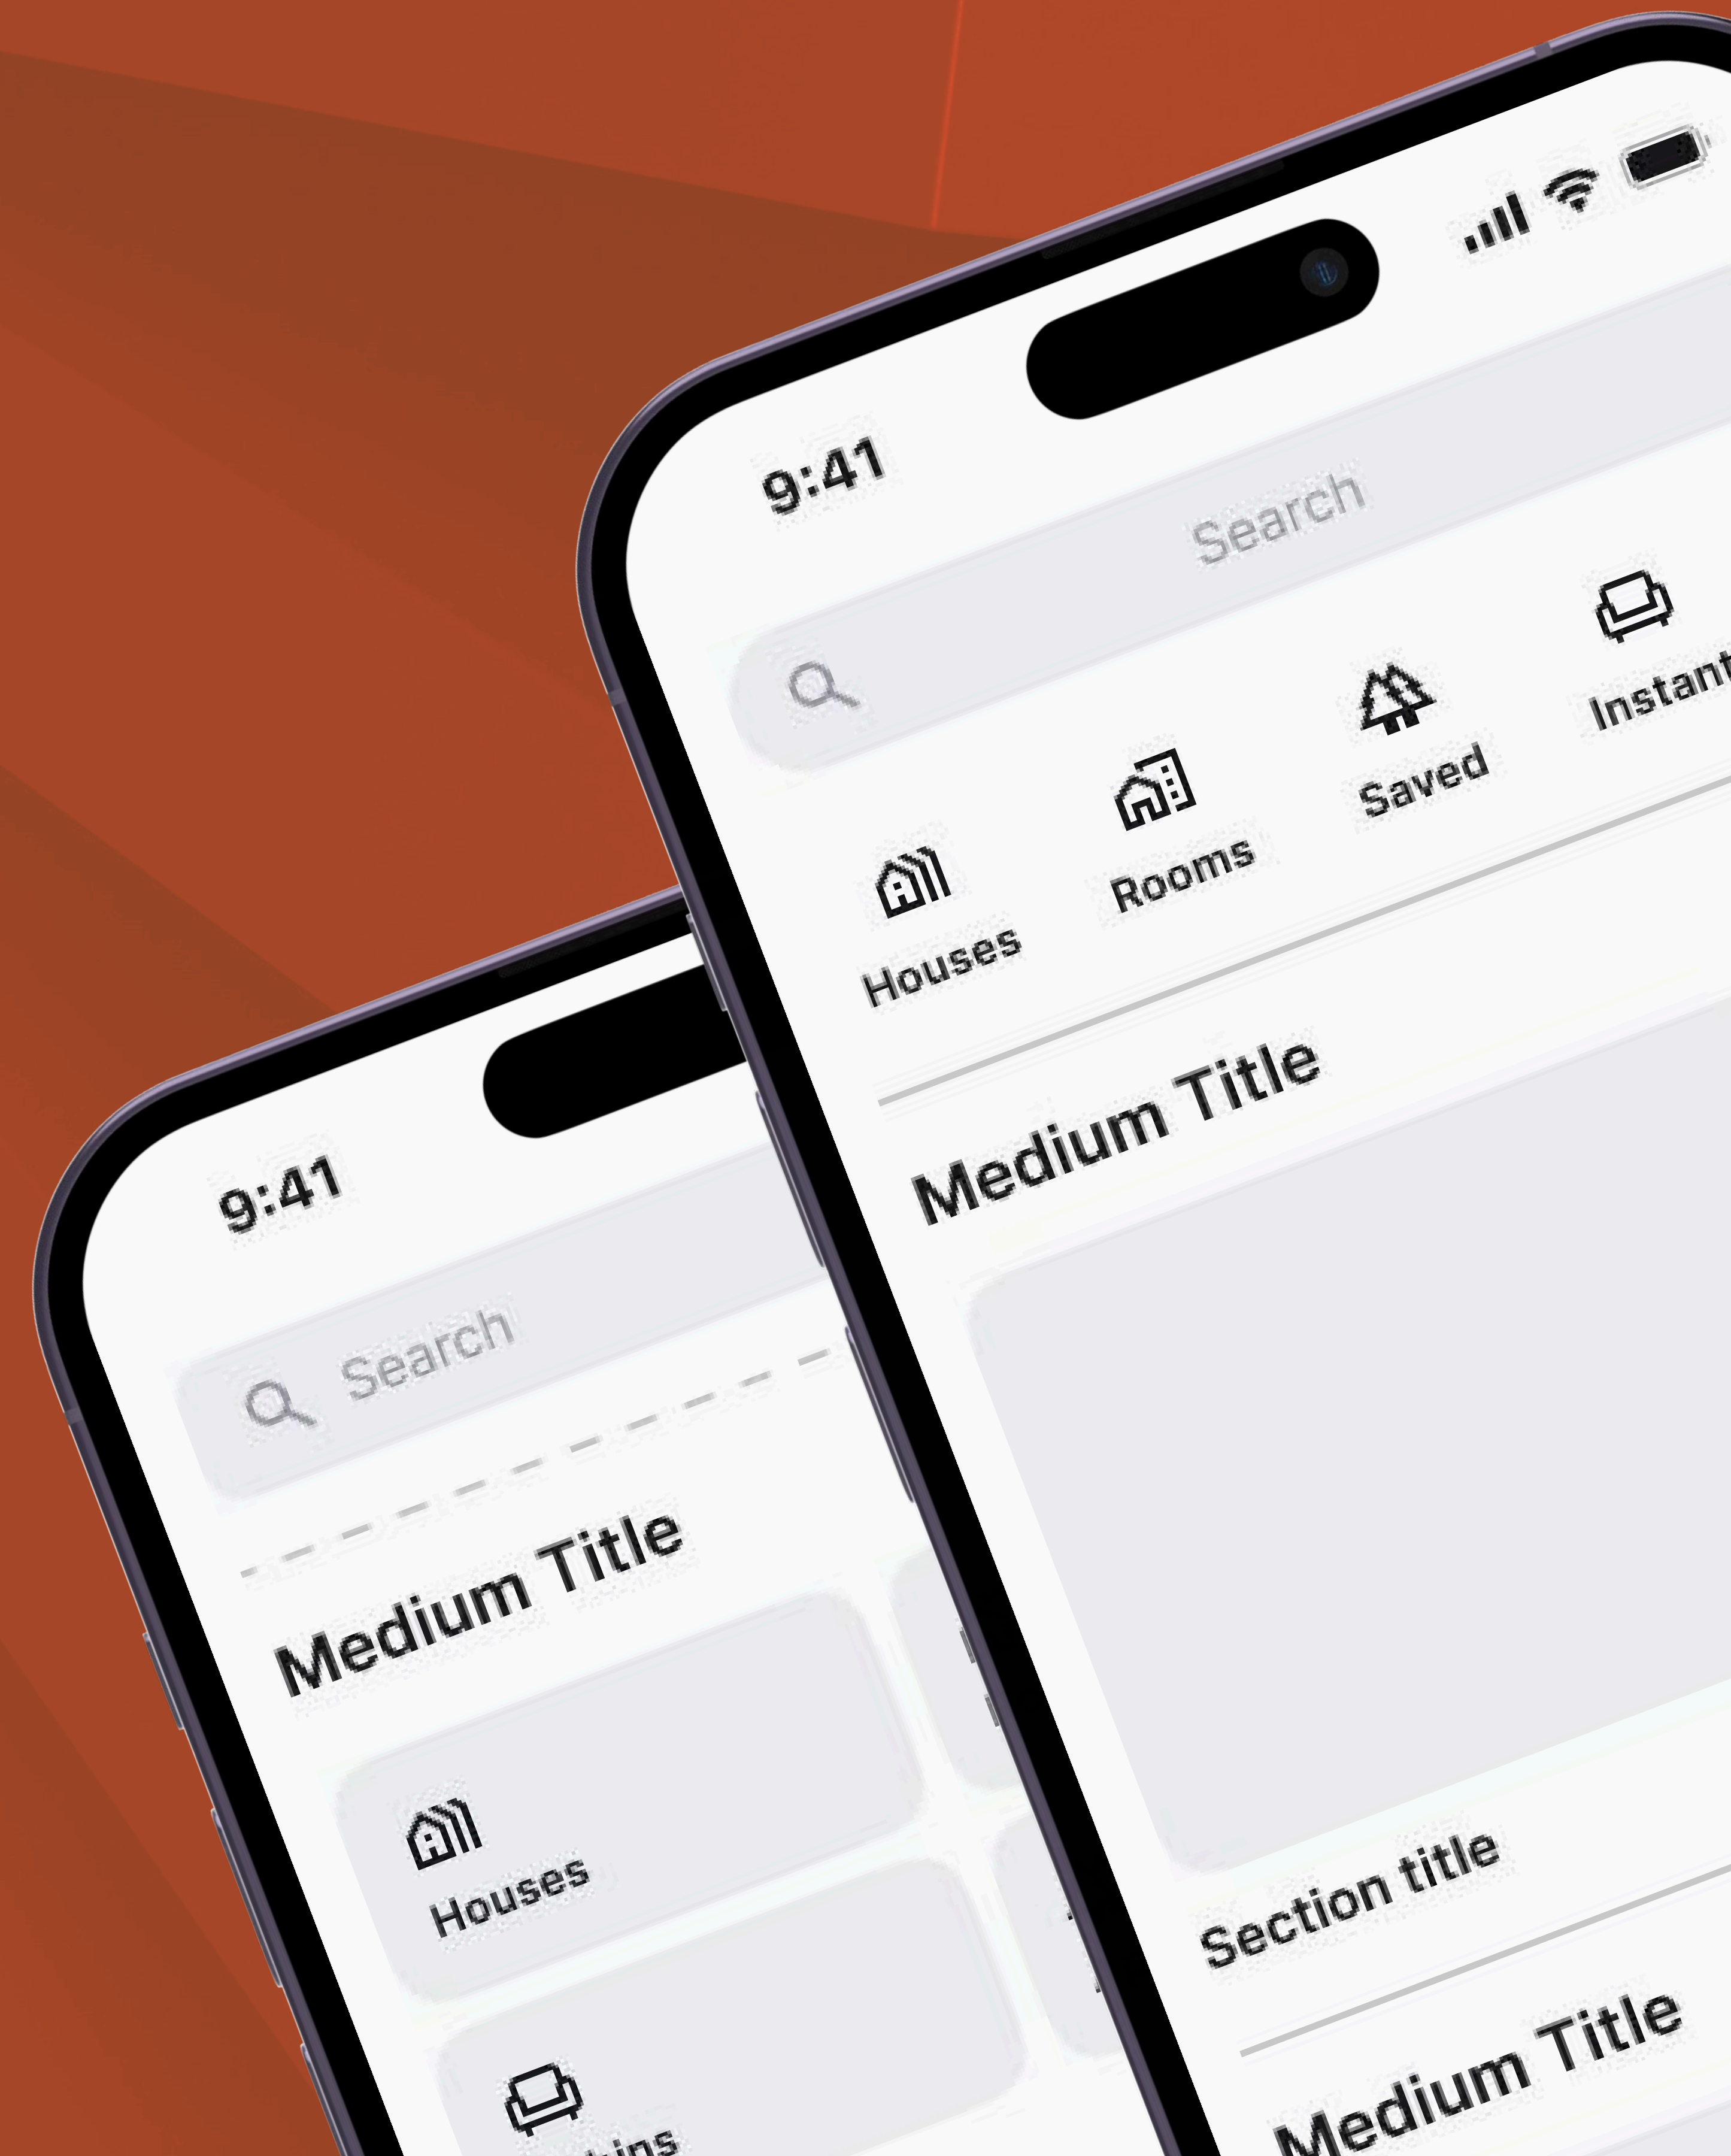

We begin designing, developing, or configuring your solution. You can track progress and provide feedback at every stage.

/3

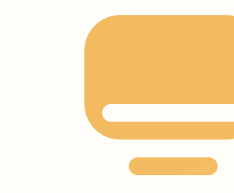

Delivery and Support :

We deliver your ready-to-use solution. You can request adjustments until you are fully satisfied, and we remain available for support and future enhancements.

We make your work simpler and your business more efficient with reliable digital solutions tailored to your needs.

What we do

Software Development

Custom software designed to simplify the management of your business.

Website Development

A modern, user-friendly website that showcases your business and attracts more clients.

AI and Automation Solutions

Smart tools that handle repetitive tasks for you, saving you time.
